

*You can earn  
professionally-driven  
online certificates  
in just 7 1/2 weeks!*

Bryant & Stratton's Professional Skills Center is now offering professional online certificates! In just 7½ weeks, you can earn professional certificates and develop essential workplace skills in many different courses of study! Our self-paced programs are flexible and cost effective: giving you the freedom to work when they want with less time and less financial commitment than a 2 or 4 year degree.

**A Wide Variety of Certificate Programs:**

We offer certifications that range from technical development to professional development. Each addresses the critical competencies that ensure success in the marketplace.

**Technical Development**

- Desktop Support
- Web Design
- Database Administration—Oracle
- Database Administration—SQL
- IT Security

**Professional Development**

- Sales
- Advanced Sales
- HR Compliance

- Business Communication
- Leadership
- Project Management
- Business Finance
- Office Productivity
- Six Sigma

**Online Certificate Program Features**

- Interactive courses are rich in content and presentation
- Business simulations are based on real problems allowing you to apply newly acquired learning
- Content is relevant, easy-to-understand and driven by industry standards
- Administrative support helps you customize the learning process
- Elective courses allow you to build solutions to your unique needs

**About Bryant & Stratton College**

Bryant & Stratton College has been providing integrated education and training solutions for over 150 years, and online training for 9 years. We are an accredited career college and our Professional Skills Center offers contemporary outcomes-based education and training featuring a complement of certificate, continuing education and professional development options.
